

REFERRAL FOR PEER TUTORING

In order for students to be set up to receive peer tutoring, they need to be faculty-referred to the Counseling Center specifically for tutoring in those subjects.* This ensures that they have met with their instructors about the difficulty they are experiencing with their courses. This allows the instructors to advise students of all the resources available and of the students' standing in their courses. The instructors are also able to direct students to resources they consider most promising for the students on an individual basis.

**Please remember, for CTE students, the professionally staffed Math Lab and English Lab in Dean Hall are to be recommended prior to peer tutoring for English composition and math courses. The Writing Center in Cartwright Hall is available to all to assist with writing.*
